

ANI plast start producing plastic plumbing in site in Lithuania in 2015 m. We start with strong understanding that our main purpose to create and produce high quality products for reasonable price and secure modern packing. Our fully up-to-date production using best molding equipment, the highest quality German and Austrian injection machines and packing lines provides an opportunity to achieve company goal.

ANI plast always hope for long, productive and cooperative relationship!

Started our journey with passion and enthusiasm, we established ourselves and become recognized in markets of Lithuania, Poland, Ukraine, Germany, Algeria, Latvia, Estonia, Balkan and in other Europe and Africa countries.
