AVI Plast

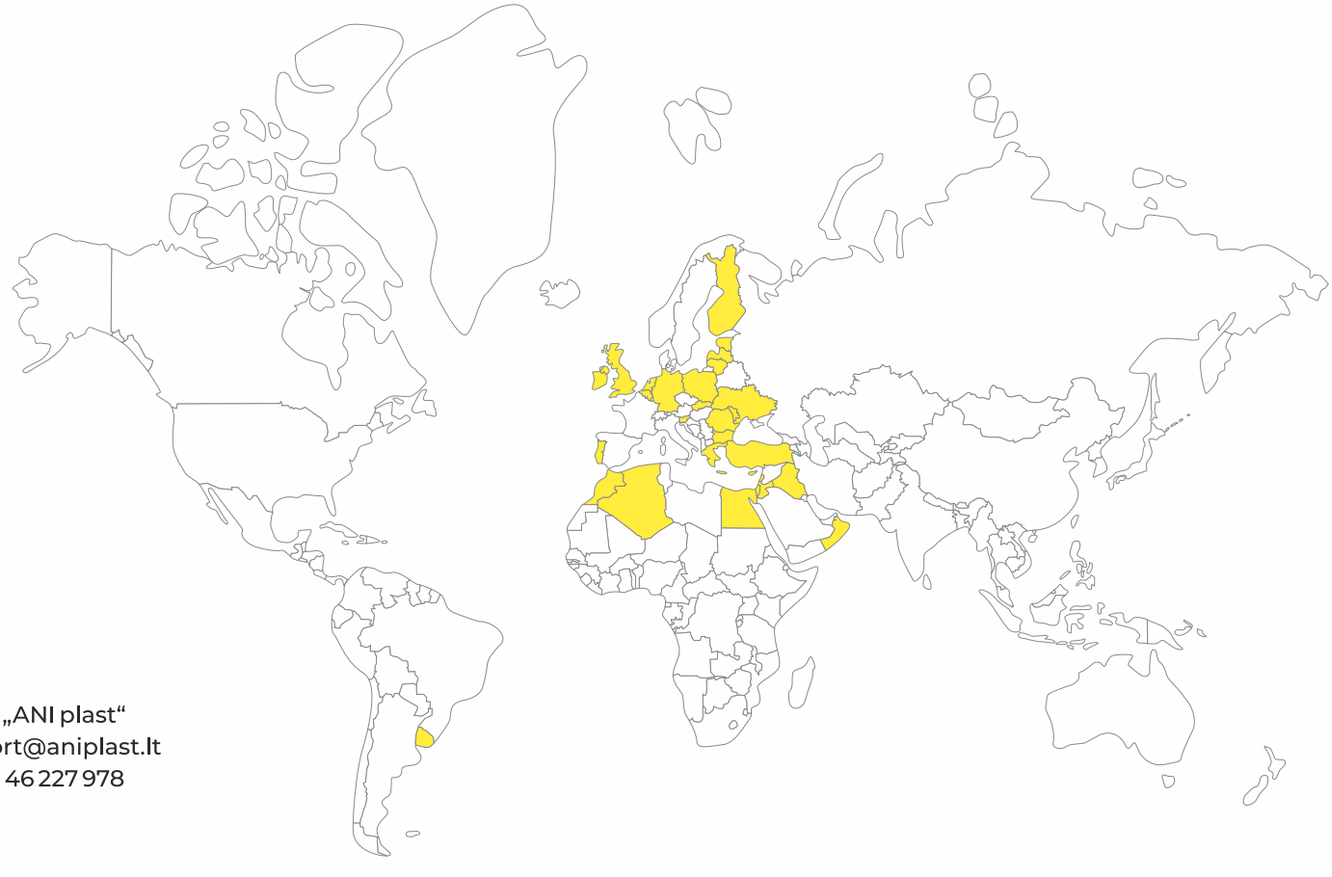

ANI Plast is a Lithuanian manufacturer of high-quality plastic plumbing products, established in 2015. Since the beginning, our goal has been to deliver reliable, innovative, and cost-effective solutions that meet the highest quality standards.

Our production facility is equipped with modern German and Austrian injection molding machines, advanced manufacturing technologies, and efficient packaging lines. This enables us to ensure consistent product quality, high production capacity, and dependable deliveries to customers across Europe and beyond.

Quality, flexibility, and long-term partnerships are the foundation of our business. We continuously invest in technology, product development, and customer service to provide solutions that create lasting value for our partners.

At ANI Plast, we believe that strong partnerships are built on trust, quality, and mutual success.

Starting our journey with passion and enthusiasm, we have established ourselves and gained recognition in the markets of Lithuania, Poland, Ukraine, Germany, Algeria, Latvia, Estonia, the Balkans, and other countries in Europe and Africa.
